

## Large Utilities

Large utilities get their water from multiple sources, according to David Andrews, EWG senior scientist. The eleven utilities below obtained the most federal health-based and compliance-based violation points from the EPA.

■ Nitrate (ppm)  
 ■ TTHMs (ppb)  
 ■ Nitrate and Nitrite (ppm)  
 ■ Radium, combined (pCi/L)  
 ■ Arsenic (ppb)  
 ■ Cadmium (ppb)  
 ■ Chromium (ppb)

\* EWG's health guideline for arsenic is 0.004 ppb
